

PRODUCT DATA SHEET
Metalosate® Tropical™

Product Number 09029 Manufactured¹ in USA
09029-A Manufactured¹ in Italy

Description Metalosate® Tropical™ is an amino acid-based product designed for foliar application on plants. It can be used to aid in preventing or correcting nutrient deficiencies that may limit growth, production, or quality of crops.

Product Specifications	Parameter	Method	Specification ²
Chemical			
	Boron	QC WI (Q 100)	Not less than 1.00 %
	Iron	QC WI (Q 100)	Not less than 0.660 %
	Magnesium	QC WI (Q 100)	Not less than 0.500 %
	Zinc	QC WI (Q 100)	Not less than 2.00 %
	Molybdenum	QC WI (Q 100)	Not less than 0.10 %
	Nitrogen	QC WI (Q 93)	Not less than 1.50 %
Physical			
	Density	QC WI (Q 20)	1.16 - 1.23 g/mL
	pH	QC WI (Q 24)	5.40 - 6.40 (1 % in distilled water)

¹This product is manufactured using ingredients sourced domestically and/or globally. This statement does not imply that the product is eligible for preferential duty under any particular free trade agreement.

²Product Specifications are subject to change without notice. Product release criteria are based on meeting the above guaranteed analysis requirements. A Certificate of Analysis is issued for each production lot meeting these criteria. Results are reported on the product 'as is', with elemental content expressed on a weight per weight percentage basis.

Prior to use, mix a small quantity of the product with other materials with which it will be sprayed to test compatibility of the substances.
